

# CITY OF BOVEY RESIDENTS

## Hydrant Flushing Notice

The City of Bovey Public Works Department will be conducting its semi-annual fire hydrant flushing beginning the week of October 14th, 2013 and continuing the work until it is completed. Hydrant flushing is necessary to remove any trapped sediments that may have accumulated in the water mains. Residents may experience some temporary discoloration or reduced pressure of their water during this period.

Allowing the water to run for a few minutes will generally clear up the discoloration.

**Please ensure you run your water until it clears up before drawing water for drinking, cooking or doing laundry.** You may need to clean aerators that are on the end of your faucets. We apologize for any inconvenience this may cause. An information sheet containing frequently asked questions is available at the City Hall Clerk's Office. Please contact the City Clerk at 245-1633 if you have any questions.
